

Marion Health Diagnostics

Outpatient Lab and Radiology Locations

Marion Health Diagnostics offers a wide range of diagnostic testing and imaging services using state-of-the-art equipment and the latest technology.

For your convenience, testing is available at five outpatient lab draw sites and three outpatient radiology sites throughout Grant County.

Our MR Theater System, located at MGH Campus, was designed for enhanced comfort by immersing the patient in a virtual reality theater.

A physician order is required for lab and imaging services.
